Matchmaking in early innovation phases

As the economic system is transforming into a green economy—your innovative technologies, process engineering as well as forward-looking green solutions are needed to meet a growing demand in the next years.

The Green Innovation and Investment Forum is the pan-European event in Baden-Württemberg to support researchers, start-ups and entrepreneurs with smart business ideas from across the continent.

The premiere last year was a big success for applicants as well as potential investors. This year it is your time to shine.

Find the investors and business partners you aim for – we look for:

- ▶ Products
- ▶ Processes
- ▶ Technologies
- ▶ Solutions

Venue

Steinbeis – Haus für Management und Technologie (SHMT)
Stuttgart, Germany

Show us that your business idea has what it takes! Eligible (but not exclusive) sectors and technologies are:

- ▶ Environmental Engineering (Water, Air, Recycling, Design-to-Reuse etc.)
- ▶ Alternative Materials / Renewable Resources
- ▶ Resource Efficiency (Savings of Energy and Materials)
- ▶ Efficient Production Processes / Urban Factories
- ▶ Sustainable Solutions for Smart Cities
- ▶ Green IT / Smart Grids / Sensor Technology
- ▶ Renewable Energy / Climate Protection

Green Training Day, 23rd February 2016

- ▶ Exclusively for start-ups, founders and entrepreneurs
- ▶ Improve your presentation and your business plan, prepare your pitch
- ▶ Immediate feedback by professional coaches

The Pitching Event, 24th February 2016

- ▶ Pitching event and dinner with partners and investors
- ▶ Start-up financing
- ▶ Licensing of technologies
- ▶ Finding partners or clients
- ▶ Feedback from European investors
